

SAGE Scholars Value Index

90% of
SAGE Scholars
colleges and
universities have
received an
“America’s Best”
ranking by U.S.
News and
World Report.

SAGE Scholars Value Index

SAGE Scholars is proud of the caliber of colleges and universities we have worked with over the last 25 years. These institutions attract top students from all over the country and 90% have received an “America’s Best” ranking by U.S.News and World Report.

Even so, every once in a while we are asked; How good are SAGE Scholars member colleges and universities? Of course, we think our member colleges and universities are the best - but we set out to prove it.

Welcome to the SAGE Scholars Value Index.

What is the SAGE Scholars Value Index?

Great question! Our research shows that there are many factors our parents and students consider when choosing a college or university. We at SAGE Scholars found these are among the most important:

1. Student-to-faculty ratio
2. Average class size
3. Student loan default rate
4. Average discount off the list price of college
5. 4-year graduation rate
6. Endowment per student
7. Future earnings

The SAGE Scholars Value Index was created to help students and families compare colleges based on these 7 factors. We have learned that our students and families prefer small class sizes, high 4-year graduation rate, higher career earnings, a lower loan default rate, and colleges with as stable a favorable picture as possible; a college with a high SAGE Scholars Value Index scores well on these criteria.

We obtained values for each of the above factors using information from the federal government’s College Scorecard and other publicly available information, and then calculated a single number “index” based on those values. The higher the SAGE Scholars Value Index, the better. Just look for the college or university you are interested in on our alphabetized list. We have also included a sampling of non-flagship state universities for comparison purposes.
